

Aveley Primary School P&C

President's Report – 3 March 2026

Welcome to a new year

- I would like to take the opportunity to thank the 2025 P&C committee members for their hard work and support over last year.
- It was another great year of achieving fundraising goals, building awareness of our P&C and building the Aveley Primary School community.
- I would also like to extend our thanks and extend best wishes to those committee members we farewelled last year.
- It's exciting to acknowledge the new faces we see around the table this evening; welcome to you all and I hope this is the beginning of new friendships.

Stem/Open Night 2025

- An excellent turnout from P&C committee members at the Stem Night last year- thanks to everyone for putting in their time and effort it was great to get such a good response from our community with lots of people engaging and asking about the P&C and what we do!
- The STEM/Open Night events have continued to grow in attendance over the years, which is great to see the sense of community building at the school.
- The vendors in attendance were again successful with the P&C receiving a financial kick back as a result.

Welcome Back Event

- Thank you to everyone for their amazing support for our Welcome Back Event.
- A change in day and timings made quite a bit of difference this year and despite the heat, we saw our overall attendance triple in size from last year.
- Some further lessons learnt to take on board and we hope to finesse efforts for the 2027 school year.

Volunteers are always needed

- Continue having discussions in your friendship circles, class year group chats and at all our events. The more people we can bring in to join us will help ease the workload for everyone.

Peta Magorian
President, Aveley P&C
